(54) CASING, METHOD FOR DESIGNING CASING AND PORTABLE TERMINAL

(57)Abstract:

PROBLEM TO BE SOLVED: To freely change design of colors, patterns, etc., on the surface of the casing and to allow the casing to correspond to the diversity of user's needs, by downloading display data for determining the design of colors and patterns on the surface of the casing to a storage part in the casing.

SOLUTION: An LCD 4 is attached to the surface of the casing. Plural display data read out from external information terminal equipment are previously stored in the casing side storage part 2. A CPU 6 reads out the data concerned from the display data stored in the storage part 2 by a user's instruction input and determines the colors or patterns of the LCD 4 or their combination to design the surface of the casing.

LEGAL STATUS

[Date of request for examination] 11.10.2000
[Date of sending the examiner's decision of rejection] 07.05.2002
[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]
